

IIA Sri Lanka has entered in to Memorandums of Understanding (MOU) with selected educational institutions in order to provide greater benefits to its members through collaboration with such institutions. The main objective of these MOUs is to promote and nurture education and practice of Internal Auditing and other professions (where the MOU partners specialize in) for the mutual benefits of the respective membership base of Sri Lanka. In essence, these MOUs envisage to derive synergistic benefits of human and physical resources by capitalizing institutional strengths of the MOU partners.

Benefits to the members at a glance;

- a. Discounted rates (free of charge in some instances) for events/certification trainings to uplift the knowledge in the respective professions

- b. To jointly organize webinars/ physical events to increase awareness of the respective professions

- c. Encourage participation of members from both organizations and share training materials with each other.

- d. To encourage members of one institution to undertake certification programs offered by the other.

- e. Share scholarly articles written by one institution with the members of the other.

MOU between University of Kelaniya and IIA Sri Lanka
